*\*We have expanded the pool deck area and added new shade sails to provide more space for our members and guests. The chairs are spaced at appropriate distances apart. Please do not move them. If you are a single, please do not take up a couple's seat.*

*\*With limited lounge chairs, please be courteous to anyone who is waiting to catch some rays. If you have been in there for more than an hour, please be kind and share the space.*

*\*The pool, hot tub, common areas, and sports facilities will remain open with limited gatherings of 10 persons or less. Please gather responsibly and practice smart social distancing.*

*\*If you have spent time in a high-risk space such as a hospital, doctor's office, bus, train, or airplane, we ask that you self quarantine from the resort's grounds for two weeks.*

*Please continue to avoid shaking hands, kissing, and hugging. We ask that the elders in the high-risk category to please avoid using the facilities.*

COVID-19 can spread from person to person through small droplets from the nose or mouth, including when an individual coughs or sneezes. These droplets may land on objects and surfaces. Other people may contract COVID-19 by touching these objects or surfaces, then touching their eyes, nose or mouth.

There is currently no vaccine to prevent COVID-19. The best way to prevent illness is to avoid being exposed to the virus. The **CDC** recommends these everyday preventive actions to help stop the spread of respiratory diseases, including:

- Avoiding close contact with people who are sick;
- Staying home when you are sick and avoiding contact with persons in poor health;
- Avoiding touching your eyes, nose and mouth with unwashed hands;
- Covering your cough or sneezing into a tissue, then disposing of the tissue;
- Washing your hands often with soap and water for at least 20 seconds, especially after going to the bathroom, before eating, after blowing your nose, coughing or sneezing;
- If soap and water are not readily available, use an alcohol-based hand sanitizer with at least 60% alcohol. Always wash hands with soap and water if hands are visibly dirty; and cleaning and disinfecting frequently touched objects and surfaces using a regular household cleaning spray or wipe;
- Avoid discretionary travel like shopping trips, and social visits.

*If you are feeling ill and experiencing the symptoms of COVID-19, please quarantine yourself, call your healthcare provider, and alert the office immediately.*

*Thank you for your understanding during these trying times.*

***Now the fun stuff...***
